

# SUSTAINABILITY ROUND-UP

APRIL - JUNE 2022

**SIDDHARTH SHARMA**  
Group Chief Sustainability Officer, Tata Group

Dear colleagues,

I am pleased to share the latest edition of the Sustainability Round-up (April - June 2022). The Tata Group has ranked No.1 in Asia-Pacific on Sustainability as per the GlobeScan SustainAbility Leaders Survey 2022 released recently. It is also a matter of pride that we have now featured in the global top 15 for the second time in three years, and are the only Asian company to do so.

This is a true testament of the Group's progress on sustainability through the continuous efforts of our companies over the years.

It is also a result of the vision of our Group Chairman, N Chandrasekaran, who has laid out a bold and transformative agenda for the Tata Group to be Net Zero by 2045 and has made sustainability a key pillar of the Tata growth story going forward.

As a part of our endeavour to mainstream sustainability across the group, Tata Sustainability Month 2022 offered the 'Only One Earth' e-course on sustainability, exclusively for Tata colleagues. Over 30,000 employees from 60+ companies participated in Tata Sustainability Month and embarked on their sustainability journey.

I hope you enjoy reading this volume of the round-up, aimed at bringing to you, sustainability highlights from the Tata group and from across the globe. Please feel free to write to us with your feedback at [tatasustainabilitygroup@tata.com](mailto:tatasustainabilitygroup@tata.com)
